## Adriana Villalobos

Frontend Developer | UX/UI Designer

I am a professional UX designer and front end developer for web and mobile application. I am passionate about designing interfaces user friendly and enthusiast for new technologies and research. I've been working for about 10 years in the web development field, mostly focusing in website planning, UI / UX design and development.

## Work Experience

**Maxisistemas.com.ar:** Frontend developer in the I+D department, participated of development of a new e-commerce web app made with Angular.js 1.5 and API REST (Maxideli Mobile). Also I did implementations of esthetical changes for other company's products. Developed a new version of the institutional page and its landing pages, using Twig, Material Design, Bootstrap. [ July 2016 - March 2017 ]

**Webnerdos.com:** Envision and elaboration of the complete business idea: business model, selling plans, strategic fit, web design, copywriting, development and webmaster for local clients. Also I work as front end developer with teams of freelancers working for international agencies. [ July 2009 – June 2016 ]

**Business Vision:** Specialist of customizations for Collabnet User Interfaces. Design and webmaster of the corporate site: [bvision.com](http://bvision.com). [ February 2008 – June 2009 ]

**Paginar.net:** As part of the Interactive Marketing team, I worked building sites in HTML+CSS and in the content submission process. Also, I collaborate in the planning of innovative marketing strategies for the customers. [ June 2007 – January 2008 ]

**AvVenta.co.cr:** As part of the digital production team, I worked as outsourcing resource for major agencies in United States, making mockups for graphic designs, implementing refreshments and submitting content. All under confidentiality agreements and QA rough standards of coding and procedures. [May 2005 – June 2006 ]

**Cyberfuel.com:** As part of the creative team, my job included listen and get into the client's needs, providing answers, given advice in technical and strategic issues, the planning, designing and the static implementation of the customer's web project. [ May 2005 – June 2006 ]
